

# Increase value / secure IP

**Pioneers in legal protection in the digital environment, we have been at the forefront of innovation since 1978, assisting more than 18,000 companies and individuals in securing and enhancing the value of their intellectual property and managing more than 200,000 source code deposits.**

**We have expanded our offering to include related trust services such as :**

- providing certificates
- electronic signatures
- time stamping certification
- secured data transmission
- managed access to confidential data
